

Assembly instructions

Please note before you start that this is only one method since windows differs depending on the building.

If your window has a cross post follow these 5 steps below to put up the window cover safe and carefully.

Step 1:

Insert the strap in the head of the window cover and stick out the window cover through the window.

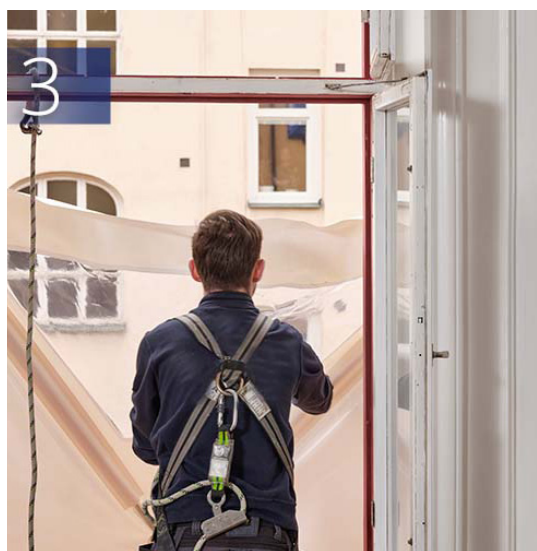

Step 2:

Carefully pull up the window cover against the facade from one side as a start.

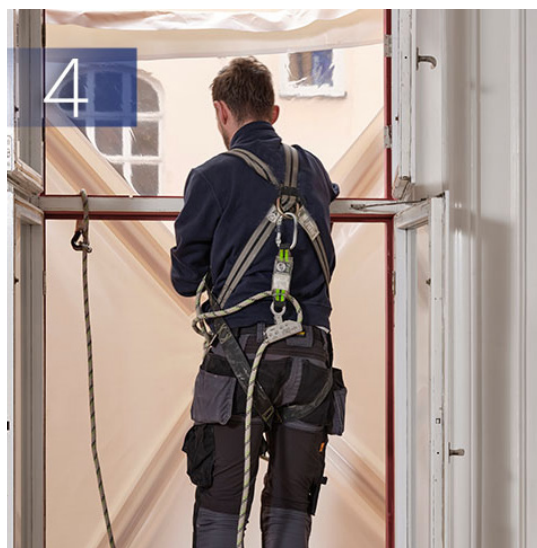

Step 3:

Repeat procedur 3. Carefully pull up the window cover against the facade from the other side.

Step 4:

Pull and tighten the strap firmly in the cross post. Finish by tying the strap.

Step 5:

The window cover is now in place.
